WARNER BROS.
STUDIOS LEAVESDEN

THE WONDER WORKS AT WARNER BROS. STUDIOS LEAVESDEN

- The Wonder Works exists with the purpose of supporting families working in film and television by providing accessible, affordable and flexible childcare services where they're needed most.
- A brand new, bespoke and flexible nursery facility, The Wonder Works opened on-site at Warner Bros. Leavesden Park, adjacent to Warner Bros. Studios Leavesden, in September this year as the first on-site dedicated childcare facility at a studio in the UK.
- Full-time and flexi-spaces are currently available to the children (3 months – 5 years) of WarnerMedia staff, Leavesden based productions, tenant companies based at Warner Bros. Leavesden Park and members of the Production Guild.

“We are very excited to welcome The Wonder Works to Warner Bros. Studios Leavesden and to be able to offer a high quality and much needed childcare facility on site. The lack of suitable childcare options is constant challenge for parents wishing to continue working in the film and television industry; the aim is for this initiative to go some way towards redressing the balance.”

Emily Stillman, SVP, Studio Operations, WBSL

COMMUNITY

- Committed to providing support through fundraising, volunteering, sponsorship, skills sharing and donations
- Working with local councils, communities and businesses
- Our work in the community has led to the creation of The Chamber of Conscience, a network of goodwill that connects businesses and the community at a local level creating a catalyst for positive change

Charity Support

Warner Bros. Studios Leavesden work with community partners throughout the year through volunteering, fundraising, skills sharing and donations.
