Ocado Group is 20 years old: market capitalization 18-£20 billion

Roughly £2m - £2.5m more valuable every day since starting!

Introduction to...

Ocado.com (Ocado Retail Limited) [2020 figures]

- £2.1 billion retail sales (up 35% in a year)
- 330,000 orders per week. 680,000 customers.
- 60 items per order. Average > £100 per order.
- 20m grocery items picked per week
- 50,000 items in catalogue
- 99% order accuracy
- 0.4% wasted food

Dordon (2013): 350k sq ft = 5 football pitches in 35-acres

**Massive warehouses (UK)
with automated
goods-to-man picking**

Conveyors: Hatfield, Dordon

**Robots: Erith = 563k sq feet
(>7.5 football pitches)**

2021: Bristol, Purfleet, Andover

Introduction to...

Technology pioneers

World-leading innovator in ecommerce, robotic warehousing and smart logistics

- 2,000+ engineers - software, electronics, mechanics, robotics, data science
- Cutting-edge technologies – artificial intelligence, machine learning, swarm robotics, simulation/digital twins, internet of things (IoT), clouds
- 11 development centres: Hatfield, London, Krakow, Wroclaw, Barcelona, Sofia, Stockholm, San Francisco, Toronto and Las Vegas

Information Tech

- Software
- Simulation
- Box moving robots
- Picking robots
- Data science
- Apps/ecommerce
- Logistics

Artificial Intelligence

- Optimisation algorithms
- Supervised machine learning
- Imitation learning
- Reinforcement learning
- Neural network architectures

- Picking robotics
- Delivery robotics

The Ocado Smart Platform

The most advanced eCommerce, logistics and fulfilment platform for groceries in the world.

Modular and scalable

- Web-shop and mobile apps
- Automated fulfilment
- Store pick
- Routing and deliveries

ICT and AI at Ocado

ICT and AI in the OSP warehouse...

Bots

- Travel at 9 miles per hour
- Pass 5mm apart
- Pick a 50-item order in 5 minutes

Novel wireless system

- 1,000 bots/base station
- 3 kbps to each robot
- 10 messages/second fixed latency
- Half a Wi-Fi channel (10 MHz)
- Licence-free spectrum (5 GHz)

4 TB/day diagnostic data feeds machine learning algorithms

Routing optimization at Ocado

- 47,000 orders per day
- 25 drops per van per day
- 2,000 vans; Av. 184 deliveries/van/week
- 1-hour slots
- Van weight limit
- Van volume limit
- 600,000 routing adjustments per second

Haddington Dynamics

Revolutionary new approach to design and manufacture

- Cycloidal gearbox 3D printed in situ
- Rotational optical encoders have 8,000x more resolution than normal: 1.6 million steps per 360 degrees
- Can measure tiny weight changes at the tip
- 10-micron accuracy with highly sensitive force control

Fundamentally changes the economics of robotics hardware
